New York Defenders of Two Felines Declare That Both Fought Rats in Interest "Of the People."

NEW YORK, Feb. 17,-The problem of determining the duties of the board of education cat, the problem that was counts David Hirshfield by Mayor Hylan, became doubly serious when it was ascertained that there are two cats. This disclosure, while making it apparent that there were two employes of the board not regularly accounted for on the pay roll, showed that the actual outlay per cat capita on the part of the city was cut in half.

Commissioner Hirshfield was not prepared to report on his findings because he had not yet heard from the special investigator assigned to the case. Although he had not talked with the mayor, he said, he believed that it was not the \$5.50 maintenace charges that provoked the inquiry, but "only the principle of the thing."

The plain tale of what proves to be a tailless cat, along with her accomplice, who is also her oftspring, was revealed at the office of Patrick Jones, the superintendent of supplies, in the board of education building. Once upon a time, when "art artists" and "efficiency experts" were not, the rats and mice in the board of education building lived almost exclusively on the choice bindings of schoolbooks awaiting delivery, causing a loss to the city of thousands of dollars every year. Rat traps were used, but the intended victims were wary. Poison was laid along the trail but the rats ate the poison and then topped it off with the bindings, only to return for more the next day. Anthony Wahle, standing guard for the educational S. O. S. system, was driven to extreme measures. So, enter the cat!

As the curtain rises upon the second act of the feline drama at a date set Commissioner Hirshfield was not pre

driven to extreme measures. So, enter the cat!

As the curtain rises upon the second act of the feline drama at a date set two years back, a member of the board of education is discovered questioning Anthony as to the cat's excuse for existence and the source of her upkeep. The keeper of the books avers that the cat is a public benefactor, confessing that in his weakness he has bought milk and meat and liver out of his own small stipend.

Whereupon the board member suggests that the city might well afford to pay for such valuable service and that he will see that the bill is O. K.d when rendered. Thus the origin of a voucher which has been sent through the regular channels periodically ever since. When the original estimate for cat maintenance was made \$6.50 was said to be a fair figure. Meantime the cost of

fair figure. Meantime the cost

name was made \$6.50 was said to be a fair figure. Meantime the cost of living for cats has steadily ris.n. yet Wahle does not complain.

Mater familias cat is a black and white cal, with a temper so victous that all those in the building, except the keeper, think twice before going near her, and then stay away. She is black and white and has no tail. She is said's have lost it in line of duty one night while battling with a rat in the geography sector of the supply room. Tabby cat is just black, with green eyes, and since the announcement that an investigator would arrive has worn a worried expression. The other cat was openly belligerent when she learned of Mayor Hylan's letter.

Commissioner Hirshfield gave assurance that if he found the cat was justifying the cost of her upkeep he would not hesitate to say so, but if he found the expense unwarranted he would be equally emphatic.

NEW YORK COTTON.

NEW YORK, Feb. 17.—The cotton market showed renewed nervousness and irregularity at the opening today. Cables were better than due, but first prices here were 3 points higher to 3 points lower and the more active months sold 5 to 9 points below last night's closing after the call. Liverpool and domestic trade interests were active buyers, however, while some reports received said there was a better spot demand in the South, and the market son turned firmer. May advanced from 34.65c to 34.34c, and July from 21.88c to 32.15c within the first half hour, or 19 to 23 points net higher. Private Liverpool cables reported continental buying of new crops and buying to fix prices for Manchester spinners.

LIVERPOOL COTTON.

FROM WALL STREET

High Priced Specialties Subjected to Further Pressure in Early Trading.

NEW YORK, Feb. 17.—High-price! specialties were subpected to renewed pressure at the opening of today's stock market, the general list also displaying further heaviness. Crucible dropped 6½ points in the first few minutes of the desultory trading and General Motors lost 3½. Oils were irregular, Texas Company gaining 2 points, while Mexican Petroleum/and Pan-America: Petroleum fell back. Equipments and shipins and textiles registered fractional recessions and rails were heatant within narrow limits.

10-Cent Debt Preys Seven Years Upon Man's Conscience

COLUMBUS, Ind., Feb. 17.-A debt of COLUMBUS, Ind., Feb. 17.—A debt of 10 cents preying on his conscience for seven years. Elmer Green. Mitchell, Ind., wrote Walter, Simmen, hardware dealer here, telling him of his anxiety to pay it. The letter reads:

"I owe you 10 cents on a baseball mitt I bought seven years ago at your store and never did pay the money. So I hope you will forgive me and let me know if you will accept the dime.

"The Lord has saved me and I have had no peace because I haven't paid you. you.

"I want to make everything right so I won't come up short at the judgment har of God. I trust you will answer soon as I want to get everything setMEMPHIS MARKETS

Predictions of Lower Meat Prices Bearish on Corn, But Rallies Later.

CHICAGO, Feb. 17.-Packers' predic CHICAGO, Feb. 17.—Fackers' predictions of lower prices for meats had a bearish effect today on the corn market. Continued smallness of receipts of corn, hewever, led to a raiy in corn prices after an initial rush to sell had somewhat subsided. The opening which ranged from Sec to 2c lower, with May \$1.34\cdot 61.35 and July \$1.31\cdot 91.31\cdot 31.31\cdot 91.31\cdot 91.3 of corn. After opening \$4.0%c down, including May at \$114.081%c, the market sugged a little more and then recovered.

Provisions were decidedly lower in response to bearish views of packers,

1,000 Children Fed In Hungary By Americans

NEW YORK, Feb. 17.—Food for more than 1,000 children is now being sup-plied daily in the Tatabanya mining dispiled daily in the Tatabanya mining dis-trict of Hungary by the mission work-ing under the direction of the American relief committee for Hungarian suf-ferers, according to a report made by Maj Foster, of the British army, to the headquarters of the committee at the Hotel McAlpin.

"I saw the manager and doctor and a representative of the directors of the

"I saw the manager and doctor and a representative of the directors of the mission," reports Maj. Foster, "and they said that the output of coal has considerably increased since my last visit, owing to improved feeding conditions. The American mission for feeding close the same started and is feeding 1,000 daily. I can not speak too highly of this work. The food and arrangements are excellent and there is a most efficient Hungarian woman in charge. "The small babies and the women feeding the babies are, however, still short of milk and this seems to be now the most urgent necessity."

Trusses did me no good, Finally I got hold of something that quickly and completely cured me. Years have passed and the rupture has never returned, although I am doing hard work as a carpenter. There was no operation, no lost time, no trouble. I have nothing to self, but will give full information about how you may find a complete cure without operation, If you write to me. Eugene M. Pullen, carpenter, 520F Marcellus avenue, Manasquan, N. J. Better cut out this notice and show if to any others who are ruptured—you may save a life or at least stop the misery of rupture and the worry and danger of an operation

Druggist Says Ladies Are Using Recipe of Sage Tea and Sulphur.

Hair that loses its color and lustre, or when it fades, turns gray, duil and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it "and a law it through your hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the bair after a few polications, it also brings back the gloss and lastre and gives it appearance of abundance.
